2. USING THE CORPUS

The corpus is available here. It is freely available for academic, non-commercial research ((CC-NY-NC). It is hosted on the LiRI Corpus platform (LCP). When using the corpus, please make sure to quote correctly.

A previous version of the corpus using the ANNIS browser is available here from the University of Zurich only. ANNIS was developed and made available by Anke Lüdeling and her team:

Krause, Thomas & Zeldes, Amir (2016): ANNIS3: A new architecture for generic corpus query and visualization. in: Digital Scholarship in the Humanities 2016 (31). http://dsh.oxfordjournals.org/content/31/1/118

The following sections detail the structure of the corpus's layers in both ANNIS and the LCP, and document the use of queries specific to ANNIS.
